

FEES-ABILITY LAB SERVICES

PHARMASEED'S FEES-ABILITY SERVICE PACK

We work closely with life-science companies both nationally and internationally. Experienced in the industry, we know that developing any new technology in the life sciences is a resource demanding task. We know that being successful in the initial rounds of funding is a critical 'make or break' stage.

We're here to help you take these first steps!

THE FEES-ABILITY LAB

PharmaSeed has re-launched its Fees-Ability Service Package to address the need of early-stage MedTech projects; one that includes PharmaSeed's extensive in-house scientific experience and high quality services. This package enables you to tap into those precious resources before any meaningful funding has been secured.

WHO IS THE FEES-ABILITY LAB FOR?

- Pre-seed stage start-up ventures
- Academic projects seeking preliminary external validation
- Pipeline programs, yet to be selected for full-scale R&D
- Studies requiring the scientist's hands-on involvement

HOW DOES IT WORK?

THE SPONSOR'S (YES...YOU!) RESPONSIBILITIES

- Presentation of the experimental hypothesis
- Outline design of the experiment

SITE RESPONSIBILITIES

- Preparation of study protocol according to study outline
- Ethics submission
- Bench and laboratory space
- Supply of research material, including handling
- Provision of generated raw data
- Raw data integrity overview

SPONSOR / SITE RESPONSIBILITIES

- Joint execution of study procedures
- Analytical activities

ADDITIONAL SERVICES

- Morphology & biochemistry services
- Imaging (e.g. x-ray, ultrasound)
- PharmaSeed's DVM or laboratory technician assistance

PRICING

PharmaSeed's services are flexible to help you make the most of your hard earned cash. PharmaSeed's Fees-Ability services are based on a predefined time block (i.e., a 4.5 hours timeframe), fixed-priced or on an hourly rate.

WHAT DO I DO NEXT?

Contact us today to discuss your project in complete confidence.
